JUNIPATA VALLEY AUDUBON SOCIETY
Vol 2 No. 2 February 1970

"The Leopard Coats"

Once in a moment of great generosity

God has shown to me

A leopard running free.

How, from that moment, could he expect of me

Born without his tolerance, calmly to see

All those women, those bloody awful women,

Dressed up in leopard skins and sitting down to tea?

- Vernon Bartlett

The February Meeting

Date: THURSDAY, February 26th

Time: 7:30 P.M.

Place: Childrens' Theater, Altoona Public Library

The meeting this month has been moved two days later to allow our guest speaker - Rep. Denny J. Bixler - time to attend. He will lead an informal discussion on environment. Questions on our area's problems may be especially appropriate. Let's raise them. This will be an important meeting. Our speaker should have a good turnout. Also, we must get our film-lecture venture off and running. Tickets and publicity materials will be available. Please make every effort to attend.

A beautiful color film will round out the Thursday evening program. "Breath of Spring", a cine-poem filmed in British Columbia. A lyrical treatment of spring. Time of showing: 8:00.

Environment Program

The 28th Street Church of the Brethren is sponsoring a series of environmental concerns programs designed specifically to educate participants on present day conditions threatening all of us. Each program, held in the church fellowship hall, will consist of a formal presentation followed by an open discussion and refreshments. Time for each session is 7:00 O'clock. The public is invited to attend.

March 1st - Subject: Pollution - Water, Air, and Land
Speaker: Dr. Robert L. Fisher

March 8th - Subject: Birth Control and Abortion
Speakers: Dr. Phillip Hoover and
Rev. J. Franklin Moist

March 15th - Subject: Violence and Crime
Speakers: Rabbi Herbert Pantich and
Atty. Paul S. Foreman

Facts About Pollution:

800,000,000 tons of CO₂ yearly
9,600,000 tons of dust yearly
22,400,000 tons of sulphur dioxide yearly
100,000,000 tons of CO yearly

Total pollution from all sources: 2,500,000,000 tons yearly

Main sources of pollution: Autos - #1
Coal - #2

CBS Evening News. Feb 23rd.
